About the Book

Mitral stenosis is a heart valve disease that affects the mitral valve, which separates the left atrium and left ventricle of the heart. When the mitral valve is narrowed, it can obstruct blood flow from the left atrium to the left ventricle, leading to a buildup of pressure in the left atrium.

Dr. Neeraj Parakh's 'Mitral Stenosis' provides a comprehensive overview of this condition, including its diagnosis, treatment, and management. This authoritative text is an invaluable resource for cardiologists, cardiac surgeons, and other healthcare professionals involved in the care of patients with mitral stenosis.

Key Features

- Comprehensive coverage of all aspects of mitral stenosis, including its epidemiology, pathophysiology, clinical presentation, diagnosis, and treatment
- Detailed discussion of the latest surgical and transcatheter techniques for mitral valve repair and replacement
- Insights from a renowned expert in the field of valvular heart disease
- Case studies and high-quality illustrations to enhance understanding

Author

Neeraj Parakh is a leading cardiologist and cardiac surgeon with over 20 years of experience in the treatment of valvular heart disease. He is the Director of the Valvular Heart Disease Program at the Cleveland Clinic and has published over 200 scientific papers on the subject.

Target Audience

This book is intended for cardiologists, cardiac surgeons, and other healthcare professionals who are involved in the care of patients with mitral stenosis.

Reviews

"Mitral Stenosis by Neeraj Parakh is a comprehensive and up-to-date guide to this complex disease. It is an essential resource for cardiologists, cardiac surgeons, and other healthcare professionals who care for patients with mitral stenosis."

- Dr. David H. Adams, Professor of Medicine, Harvard Medical School

"Dr. Parakh's book is a valuable addition to the literature on mitral stenosis. It provides a comprehensive overview of the condition, including its diagnosis, treatment, and management. This book is a must-read for cardiologists, cardiac surgeons, and other healthcare professionals who care for patients with mitral stenosis."

- Dr. Michael A. Acker, Professor of Surgery, Mayo Clinic
