Maggie Smith was born with a rare skin condition that left her with large, red birthmarks covering her body. As a child, she was often stared at and teased by her peers. She grew up feeling ashamed of her body and desperately tried to hide her birthmarks.

But as she got older, Maggie realized that she couldn't keep living her life in fear. She decided to embrace her birthmarks and share her story with the world. In 2013, she founded One Naked Baby, a nonprofit organization that empowers people with visible differences to love and accept themselves.

One Naked Baby has become a global movement, with chapters in over 20 countries. Maggie's story has inspired countless people to embrace their own unique beauty and to challenge the unrealistic beauty standards that society often imposes on us.

In her new memoir, *One Naked Baby*, Maggie shares her personal journey of self-acceptance and empowerment. She writes about the challenges she faced growing up with a visible difference, the lessons she learned along the way, and the importance of loving yourself unconditionally.

One Naked Baby is an inspiring and empowering story that will resonate with anyone who has ever struggled with body image issues or self-doubt. Maggie Smith's journey is a reminder that we are all beautiful in our own way and that we should never let anyone tell us otherwise.
